

This assignment does not count toward the final mark.

Assignment 1 - Presentation submission

Course code and name: COSC2753 Machine Learning

Length: N/A

Type: Individual

Feedback mode: Written feedback

Late work: For assignments 01 to 05 days late, a penalty of 20% (of the marks awarded) per day will apply. For assignments more than 05 days late, a penalty of 100% will apply. Weekend days (Saturday and Sunday) are counted when counting total late days.

Learning Objectives Assessed

- **CLO1:** Understand the fundamental concepts and algorithms of machine learning and applications
- **CLO3:** Set up a machine learning configuration, including processing data and performing feature engineering, for a range of applications
- **CLO4:** Apply machine learning software and toolkits for diverse applications

Ready for Life and Work

Completing this assessment would help you achieve the following employability skills:

- Analyse and model requirements and constraints for the purpose of designing and implementing solutions to a learning challenge
- Evaluate and compare approaches and algorithms on the basis of the nature of the problem/task being addressed
- Interpret abstract theoretical propositions, choose methodologies, justify conclusions and defend professional decisions to both IT and non-IT personnel via technical reports of a professional standard and technical presentations

Submission Instruction

This is a secondary assignment page for the **Presentation submission** of Assignment 1.

A video presentation, *following bellow criteria*:

- *Presentation format*: You need to use your PDF report as the basis of your presentation. In the presentation you will go through each bullet point and explain it in detail. That should include your judgment.
- *Presentation length*: Your presentation should be 10 minutes (minimum of 09, and maximum of 11 minutes). You should not exceed 11 minutes, as you will be marked only based on the first 11 minutes of your presentation. You will lose mark if it is less than 09 minutes.
- *Must cover*: Fulfill all the assignment specifications, based on your PDF report. You should share your window containing your PDF report while presenting, and have your camera on so your face also captured in the video.
- Please **ONLY submit your Presentation file this page**.
